---	------------------------------------	------------------------------------

Your own hybrid stand (example)

MEETING PLACE FOR LOGISTICS EXPERTS & DIGITAL CHAMPIONS IN THE SMART LOGISTICS MARKET

Structured according to focal themes:

Smart Logistics Solutions

Last mile, urban logistics, supply chain, emission-free transport

Smart Infrastructure

Digital twins, building information modelling (BIM), intelligent transport systems (ITS)

Digital Transport Solutions

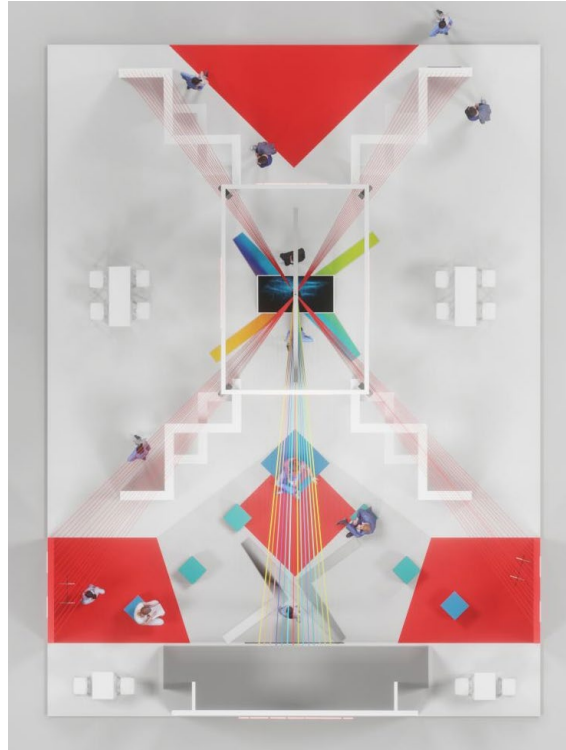

Traffic management, cooperative control centres, big data analytics

Disruptive Technologies

Artificial intelligence (AI), robotics, hyperloop technologies, blockchain technologies

High Performance Infrastructure

5G-communication, digital ports, airports and terminals, intelligent IoT-solutions

Green - Lean - Smart

Fast track innovation, innovative input flow planning and control, cooperative logistics planning

Resilience and Sustainability

Supply chain resilience, the circular economy, climate neutral supply chains

Transformation & Digitalization

Logistics 4.0 and management 4.0, global supply chains, 3D-logistical flows, big data analytics

SMART LOGISTICS MARKETPLACE

TRANSFORMATION OF TRADITIONAL THINKING

- ✓ Presentation of your projects and products on thematically clustered presentation walls
- ✓ Knowledge exchange and discussions in the arena
- ✓ Central meeting point in the communication area
- ✓ Exclusive community app to enable networking before, during and after the event

- Topics and solutions for the future in logistics and supply chain management
- Innovative presentations
- Top lead generation
- New business

FUTURE OF MOBILITY MARKETPLACE

EXCHANGE AND NETWORKING FOR PARTICIPANTS WITH INNOVATORS AND MARKET "GAME CHANGERS"

Structured according to focal themes:

Connected Mobility

Integrated transport planning, data security, 5G-communication

Smart Infrastructure

Digital twins, building information modelling (BIM), intelligent transport systems (ITS)

Sustainable Cities & Regions

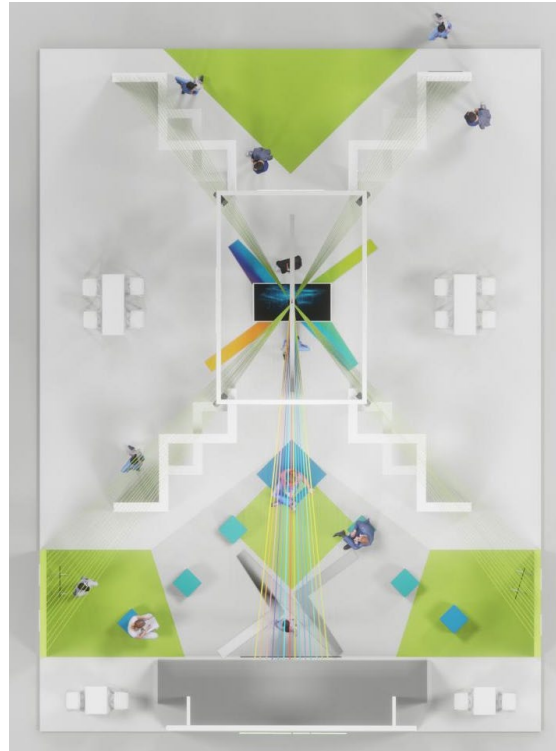

Regional logistics, inner city development, design to mobility

Digital Transport Solutions

Traffic control, cooperative control centres, big data analytics

New Mobility Use Cases

On-demand mobility, micro-mobility, mobility platforms

Future of Individual Mobility

Public transport, alternative drive trains, the future of the car, new mobility apps

New Aviation

Air-taxis, airports and control, flybots

Disruptive Technologies

Artificial intelligence(AI), robotics, hyperloop technologies, blockchain technologies

FUTURE MOBILITY MARKETPLACE

EXCHANGE ABOUT THE WAYS TO A TRAFFIC TURNAROUND AND
THE MOBILITY OF TOMORROW - TODAY!

- ✓ Presentation of your projects and products on thematically clustered presentation walls
- ✓ Knowledge exchange and discussions in the arena
- ✓ Central meeting point at the *Tangible Bar*
- ✓ Exclusive community app to enable networking before, during and after the event

- Best practice and visions
- New mobility concepts and models
- Room for Discussions
- Interdisciplinary networking

INNOVATIVE MARKETPLACE-ELEMENTS

CONNECTION TO THE HYPERMOTION DIGITAL EVENT PLATFORM

1

Tangible Bar

TANGIBLE BAR

Hybrid interface between physical trade fair participants and company exhibitors

2

Community App

Thematic and physical networking of the community

3

AI-based Avatar „Information-Kiosk“

AI-based avatars welcome the participants, guide them through the exhibitor information and inform them about the focus topics of the marketplace.

4

AI-based match-making

Contact recommendations based on participant search preferences

+

Digital Twin

- contains -

Digital Hypermotion event platform*

* Service provided by Messe Frankfurt. For contents see p19

+

Advanced Analytics

- upon individual request -

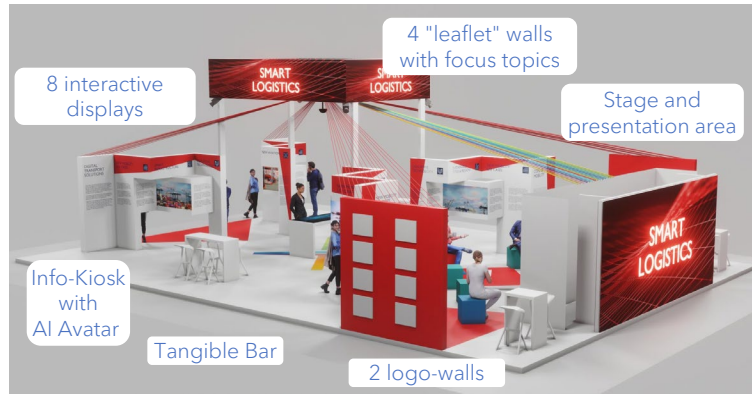

Evaluation and control of leads as well as (pandemic related) contact tracing

YOUR ADVANTAGES
